Dear Ed:

Enclosed are several nominations for the anadromous fish catalog as a result of our anadromous fish surveys on Adak this summer. To help cross reference each nomination form with the physical location of each stream, I have enclosed photocopies of maps with numbers designating different streams. The number of each stream appears in the upper right corner of each nomination form. The maps are photocopies of 1:50,000 scale maps prepared and published by the Defense Mapping Agency in Washington D.C. This map is apparently out of print, however another version of this larger scale map is available. Joe Meehan with the refuge in Adak will send you a copy of this map. Please contact me if you have any questions regarding these nominations.

Sincerely,

Doug Palmer
